Subject: Letter of Completion

To Whomsoever it may concern

We had taken services of M/s JTS for building a particular **USB Blocker Software** for our firm, the total activity of Software Building, Testing, Service, Output & Final Product was found to be satisfactory.

There were continues inputs from their Engineers which proved to be very useful and helped us make the system more robust and full proof.

Thanking you,
Yours faithfully,
For INSUTECH CORPORATION.
